

===== US Baby Names =====

Data set:

<https://catalog.data.gov/dataset/baby-names-from-social-security-card-applications-national-level-data>

Overview: It is a data set of baby names since 1880 derived from SS applications. It lists the first name and gender.

Q1. Please describe the data and provide an overview of what it contains and summarize the data.

Q2. Given the recent focus on gender equality, have names started to reflect that? Please analyze the data and present your conclusions.

Q3. Highlight one or two interesting things you found in this data set.

Output: (1) A essay or report that answers the three questions. It can be written in flowing prose, or as distinct questions. (2) An R workbook or iPython notebook, backing the report

Constraints: (1) must be completed in 24 hours from start to finish, honor code (2) Code provided must be reproducible on my machine
